# HP EliteBook Folio 9470m Ultrabook™

Everything a business Ultrabook™ should be. Travel light at full power. HP's first business Ultrabook™ with docking capabilities included, the HP EliteBook Folio keeps you productive from the airport to the desktop. Resume from sleep quickly and knock out projects fast. With long battery life, you can keep up with whatever the day brings. Enterprise ready. IT friendly. All business.

HP recommends Windows.

Carry less. Do More.

At just 18.95 mm (¾ inch) thin, it's our thinnest EliteBook yet. The HP EliteBook Folio gives you a 35,56 cm (14") diagonal display with the all the mobility you'd expect from an Ultrabook™.
Whether you're working in the office or on the go, the workday just got a whole lot lighter—and more efficient. Thanks to built-in VGA, DisplayPort, Ethernet, and three USB 3.0 ports, you can say goodbye to a bagful of dongles. Just grab your HP EliteBook Folio and go.

Advanced design.

Business won't wait, so get going in seconds with Flash Cache technology or a solid-state drive.
Engage in videoconferences, web-based trainings or streaming videos[1] with smooth audio quality. SRS PRO Audio allows you to share crisp, powerful audio directly from your notebook.
As HP's first-ever Ultrabook™ with enterprise docking capabilities included, connect with a display, keyboard, mouse, additional ports, or printer when at the office without the hassle of USB connections.

Long battery life[2]. There's a reason for that.

Power through projects without worrying about recharging. Unlike most Ultrabooks, the battery isn't integrated so you can swap it out yourself. Plus you can easily attach a slice battery and extend power for hours and hours.

Stay connected in more places.

Access the Internet, corporate networks and email in more places with optional integrated HP Mobile Broadband featuring 3G and 4G LTE[3].
Take business further with consistent global configurations that allow for product standardization in up to 151 countries worldwide.
Keep working or playing even in dimly lit rooms or on red eye flights. It's a full-size backlit keyboard that doesn't compromise comfort.

Super secure. Totally protected.

With HP Premier Image[4], the full set of EliteBook business software and anti-virus protection is automatically included.
You're protected at every layer with HP Client Security. HP BIOS Vault[5] keeps you up and running with enhanced protection against virus attacks. An optional fingerprint reader and integrated Smart Card Reader help keep your identity secure. The security cable slot helps keep your notebook physically secure. And the embedded TPM security chip keeps your data encrypted.

The latest processors. For your best work.

Third Generation Intel® Core™ processors are built for business. Whether it's Core™ i7, i5 or i3 dual-core processors[6], you'll enjoy control, security and remote manageability[7]—all at a price that makes sense. These ultra-low voltage processors give you enhanced control, security and remote manageability—all at a price that makes sense.

A smart investment built to go the distance.

Designed from the ground up to withstand extreme conditions, the HP EliteBook Folio undergoes end-to-end diagnostics and a minimum of 115,000 hours of testing. Not only will your HP EliteBook Folio have a long lifecycle, but drivers, images, and components will be consistent and available for the life of the platform. Help prevent data loss, reduce downtime, and lower IT support costs with a choice of enterprise-class manageability tools and support for Intel® vPro processors[6].

Operating System	Windows 8 Pro 64 Windows 8 64 Windows 7 Professional 32 (available through downgrade rights from Windows 8 Pro 64) Windows 7 Professional 64 (available through downgrade rights from Windows 8 Pro) Windows® 7 Professional 32 Windows® 7 Professional 64 Windows® 7 Home Premium 32 Windows® 7 Home Premium 64 Windows® 7 Home Basic 32 FreeDOS

Dimensions	33.8 x 23.1 x 1.89 cm
Weight	Starting at 1.63 kg
Power	45W Smart AC adapter (models with integrated graphics with dual core)
Warranty	HP Services offers 3-year warranty (upgrades available, sold separately), 3-year limited warranty on primary battery

[1] Internet access required.

[2] Battery life will vary depending on the model, configuration, applications, features, use, wireless functionality and power settings. The maximum capacity of the battery will naturally decrease with time and usage. For details, see www.bapco.com /products/mobilemark2007.

[3] Broadband use requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G compatibility with HSPA+ and LTE. In US only.

[4] Use of the HP Image and Internet access required.

[5] HP Tools partition must not be deleted to use automatic recovery.

[6] Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

[7] Some functionality of this technology, such as Intel® Active management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future "virtual appliances" applications for Intel vPro technology is dependent on 3rd party software providers. Microsoft Windows required

Get engaged with HP Financial Services

Get engaged with HP Financial Services to implement innovative technologies essential for driving business value and competitive differentiation. More information on www.hp.com/go/hpfs.

Accessories and services (not included)

HP Mobile USB NLS DVD-RW Drive

The HP Mobile DVD RW provides an external companion optical drive to accompany a laptop or mini that does not have an internal drive. The external drive provides CD/DVD support as well as Read/Write functionality. It connects to the computer through the USB 2.0 port, and an AC adapter is included.
Product number: A2U57AA

HP Elite Slim Top Load Case

HP Elite Slim Top Load Case is perfect for the highly mobile professional with an eye for design. Constructed of leather and heavy-duty nylon, this durable case provides ample storage room for all the business necessities, while maintaining its stylish appearance.
Product number: AX680AA

HP Display and Notebook Stand

The perfect home base for the business traveler who is constantly on the go - turn your HP Business Notebook into a desktop solution supporting up to two displays (notebook display plus external display). The adaptable design of the HP Adjustable Display Stand can accommodate a range of notebook sizes with the innovative adjustable shelf. This stand can also accommodate notebooks that can be connected to a docking station and notebooks that do not have a docking connector. Integrated base rollers let you rotate the stand so you can more easily share your work. A dual-hinged, smooth-motion display stand allows for greater depth, height and tilt adjustment for maximum comfort.
Product number: AW662AA

HP 65W Smart Travel AC Adapter

AC power adapters from HP power your notebook and charge the internal battery simultaneously. These adapters provide you with the ability to power your notebook when away from the office or on the road. The HP 65W Slim Travel Adapter is perfect for international travelers or "road warriors" who are always on the go. The adapter is 40% thinner than the standard 65W adapter and includes a convenient USB port for charging other accessories while you work. Four international adapter plugs help make sure your Slim Travel Adapter works wherever you do. A stylish protective carrying case keeps everything together.
Product number: AU155AA

HP USB Optical Travel Mouse

HP Input/Output devices provide additional desktop functionality for HP Business Notebooks. The HP Optical USB Travel mouse delivers the convenience, comfort, and elegance of optical mouse operation in a miniature size - an ideal solution while on the road.
Product number: RH304AA

3-year Next Business Day Onsite

Receive 3 years of next business day onsite repair from an HP-qualified technician for your computing device, if the issue cannot be solved remotely
