Satellite Pro**Breakthrough mobility**

Powered by Intel® Centrino™ mobile technology, this cutting-edge notebook delivers stunning mobile performance, extended battery life and improved wireless connectivity. The result is enhanced productivity at work and unlimited entertainment during leisure time. The slim and lightweight form factor makes the Satellite Pro M30 easy to carry, while its sleek contemporary metallic-silver case adds additional style and elegance.

**Seamless connectivity**

This versatile notebook is equipped with everything you need to connect and communicate in a mobile world. Wirelessly access networks or the Internet via Wireless LAN. Instantly attach devices using three high-speed USB 2.0 ports. Share and transfer data via an i.LINK® (IEEE1394) port. Fast Infrared port or integrated SD™ Card slot. And get connected in the office via the integrated Ethernet LAN port.

**Widescreen sensation**

The Satellite Pro M30 features a stunning 15.4" WXGA TFT 16:10 colour display with enhanced 1280 x 800 resolution. Enjoy true-to-life DVD movies in all their widescreen glory. In the work context, this remarkable widescreen gives you space to view entire spreadsheets or CAD drawings. With the TV-out port you can also connect your notebook to an external TV.

**Thrilling multimedia**

Integrated nVIDIA GeForce FX Go5200 3D graphics with up to 64 MB of VRAM generate cinematic-quality special effects and colour for truly spectacular 3D gaming, digital video and business graphics. The experience is further enhanced by an awesome Harman Kardon sound, with dedicated multimedia Easy Keys for one-touch control. Play or burn CDs and DVDs via the DVD-R/RW or CD-RW/DVD combo drive.

**All-in-one convenience**

The Satellite Pro M30 comes preloaded with all the software you need for smooth, efficient handling of personal and business tasks. Microsoft® Windows® XP Professional OS sets the current standard for reliability and performance. Productivity-boosting Microsoft® Office OneNote™ 2003* makes it easy to capture, organise and re-use information. Toshiba ConfigFree™ software allows easy set-up and control over network connectivity.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modelling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba website: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • One GB means one billion bytes. • To be applied in countries where it is approved. • Battery life may vary depending on applications, power management settings and features utilised. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that was shipped with your computer or visit the Toshiba website at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology.

* Microsoft® Office OneNote™ 2003 is not available in all countries. For further information contact your Toshiba Authorised Reseller.
